The examination was performed as of June 30, 2010. Allstate Property and Casualty Insurance Company, hereinafter referred to as the "Company" is incorporated under the laws of the State of Illinois. The examination consisted of two phases, an on-site phase and an off-site phase. The on-site phase of the examination was conducted at the following Company locations:

The off-site examination phase was performed at the offices of the Delaware Department of Insurance, hereinafter referred to as the "Department" or "DDOI," or other suitable locations.

The report of examination herein is respectfully submitted.

EXECUTIVE SUMMARY

The examination was a market conduct examination of the following business areas: Company Operations and Management; Complaint Handling; Marketing and Sales; Policyholder Services; Underwriting and Rating and Advertising.

The examination reviewed the Company's activities related to Private Passenger automobile coverage. Areas reviewed included Underwriting and Rating Practices related to discounts/surcharges, tier rating, the non-renewal of policies that have been rewritten in an affiliated company, the marketing of the discounts and surcharges, the consistent application of the discounts and surcharges according to the rate filings filed with the Delaware Department of Insurance, complaints and advertising.

There were no areas of concern noted during the examination.

SCOPE OF EXAMINATION

This examination report is a report by exception rather than a report by test. This means that only those areas where recommendations are suggested are described and results indicated.

The experience period for this examination is January 1, 2010 through June 30, 2010.

HISTORY AND PROFILE

Allstate Property and Casualty Insurance Company was incorporated on February 14, 1985 in accordance with the laws of Illinois and began business on October of 1986. Allstate Property and Casualty Company is organized separately from Allstate Insurance Company.

The lead company in the group is Allstate Insurance Company. Primary lines of business are private passenger automobile insurance and homeowners insurance.

METHODOLOGY

This examination is based on the Standards and Tests for a Market Conduct Examination of a Property and Casualty Insurer found in the Delaware Market Conduct Examiners' Handbook. This chapter is derived from applicable Delaware Statutes, Rules and Regulations as referenced herein and the *NAIC's Market Regulation Handbook* (2008 edition).

The types of review used in this examination fall into three general categories: generic, sample, and electronic.

A "generic" review indicates that a standard was tested through an analysis of general data gathered by the examiner, or provided by the examinee in response to queries by the examiner.

A "sample" review indicates that a standard was tested through direct review of a random sample of files using a sampling methodology described in the Delaware Market Conduct Examiners' Handbook and the *NAIC's Market Regulation Handbook*. Samples of underwriting files and claims files were reviewed to determine that the processes described by the Company are actually used by the Company.

An "electronic" review indicates that a standard was tested through the use of a computer program or routine applied to a download of computer records of the examinee. This type of review typically reviews one hundred percent (100%) of the records of a particular type.

In this examination, the standards were tested through a combination of "generic" review and sample review.

Each Standard contains a brief description of the purpose or reason for the Standard. The examiners' "Observations" are noted following each Standard tested. In some cases a "Recommendation" is made. Comments, Results, Observations and Recommendations are reported with the appropriate corresponding Standard.
