

**It's that time again.** The annual period where you can sign up for Medicare prescription drug coverage or make changes in the coverage that you already have is November 15 – December 31 each year. The enrollment or changes will be effective January 1 of the following year. This opportunity allows you to join or switch a Medicare drug plan.

ELDERinfo is here to help. By explaining the program or by comparing plans based on the prescriptions that you have. When you contact our office, you will need information about your prescriptions, including:

- Full name of any prescription drug you currently take
- Strength and dosage (for example, 100 mg, two times a day)
- Number of doses in 30 days for each prescription
- Cost of the prescription to you under your current drug coverage

Between November 15 and December 31, ELDERinfo will be at several senior centers around the state providing one-on-one counseling. Listed below, please find the dates and times.
